Benefiting Lifespan Cancer Institute (The Chakoian Wellness Fund)

Join us for our 16th Annual Thanks + Giving Turkey Throwdown to benefit **The Chakoian fund**.

The Chakoian Cancer Wellness Fund at the Lifespan Cancer Institute makes a significant difference in the lives of current cancer patients by offering comprehensive support for their physical and nutritional well-being during treatment, ultimately enhancing their quality of life and overall health.

Improved Quality of Life: Patients often experience improved physical and emotional well-being, reduced treatment-related side effects, and enhanced energy levels, leading to an overall better quality of life.

Enhanced Treatment Tolerance: Maintaining physical fitness and proper nutrition can help patients better tolerate cancer treatments such as chemotherapy and radiation, potentially leading to more successful outcomes.

Emotional Support: Engagement in exercise and nutrition programs can provide patients with a sense of empowerment, reduce anxiety and depression, and foster a positive outlook on their cancer journey.

Reduced Healthcare Costs: By preventing or mitigating treatment-related complications and hospitalizations, the fund can help reduce the overall healthcare costs for patients and the healthcare system.

Stronger Survivorship: Promoting healthy habits during treatment can encourage long-term lifestyle changes, promoting better survivorship and reducing the risk of cancer recurrence.

Thank you very much for your consideration and best wishes for a happy and healthy Thanksgiving season!
